- 12) Yes

List the three elements

Fuel, heat, oxygen

List examples of the three elements of the fire triangle

Fuel – wood, furniture, paper

Heat – gas, flame, sun

Oxygen – air

If one of the three elements of the fire triangle is removed what happens to the fire?

Suffocates, it's put out, dies down

Arson and Hoax Calls

Describe at least two risks of deliberate fire setting and their consequences

Grass Fires – woodland and environment destroyed, animals dying, villages evacuated, cost to land owners and communities, putting Firefighters lives at risk.

Setting toilet paper alight in school toilets – pupils at risk of fire, school destroyed, pupils being transported to other schools, time delay of travelling, split from friends and siblings, loss of school work, possibility death of a friend.

What effects can a hoax call have to the Community and the Emergency Service?

Taking Emergency Calls away from genuine calls, poor reputation, increased risk of road traffic collisions and putting people's lives at risk when responding to calls, cost of taxpayers money i.e. £2000 per call out.

What could happen to you if you are caught?:

Deliberately setting fires: be arrested from age of 10, juvenile detention, prison, fine, criminal record affecting future careers.

Making a Hoax Call: minimum 6 month imprisonment, fine, cost to parents paying the fine
